# Energy Ultra

Save Energy and Comfort Life

## Easy Installation & Maintenance

make life easier

## Comfort

1. Cold Air Protection
2. Quiet Mode
3. Sleep Mode
4. Super Mode
5. Dehumidification function
6. 5-Level Fan Speed

## Health

1. Self-clean
2. 4-in-1 Filter

## Energy Saving

1. ECO

## Intelligence

1. Smart Mode
2. I Feel

## Reliability

1. Golden Fin
2. 100% Copper
3. R410A

## Convenience

1. Auto Restart
2. Dimmer
3. Timer 24H

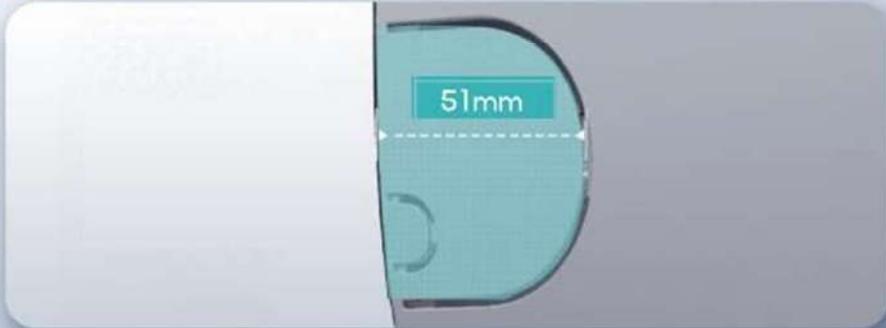

## Easy Installation & Easy Maintenance make life easier

### Easy Installation

- 1 Equipped with supporting part for easy installation

- 2 Space for easy connecting pipes increases from 46mm to 51mm

### Easy Maintenance

- 1 Open the front panel

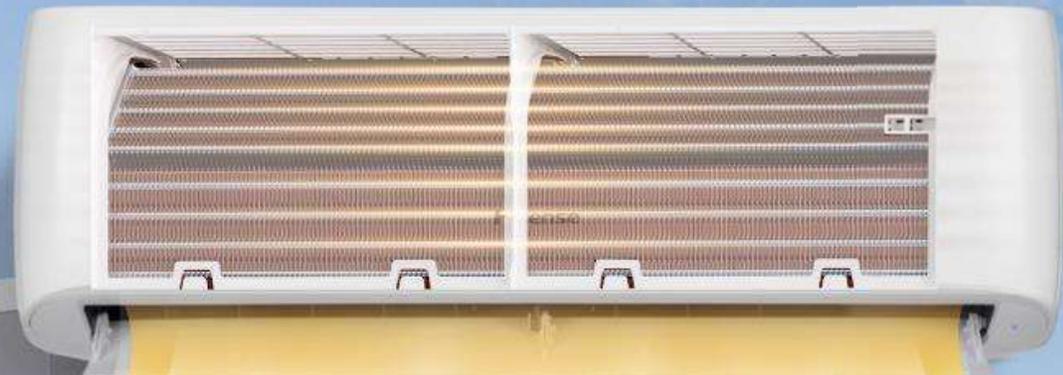

- 2 Take off box cover, remove the screws, replace PCB

Comfort

KELON

## Cold Air Protection

Prevent cold air blowing out in HEATING mode. Once the heating function is started, you can enjoy warmth.

# Comfort

# KELON

## Quiet Mode

AC adopts advanced control technology, high-quality silent motor, and optimized air ducts to achieve better airflow distribution without increasing noise, and to achieve ultra quiet in Quiet mode, allowing users to have a quiet and comfortable air surrounding.

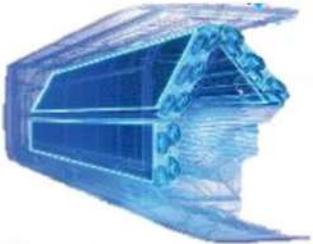

### Quiet Motor

One-piece plastic-sealed motor with good sealing performance and low noise.

### Unequal Cross Flow Fan

Effectively reduce airflow resonance

### Silent air duct design

Gradual volutes improve wind resistance and keep airflow stable.

Large radian snails achieve large air volume and low noise.

Enjoy your quiet time

Comfort

KELON

## Sleep Mode

Press the SLEEP button, the air conditioner enters into ultra-low wind speed operation, realizes mute sound, and escorts your comfortable sleep

The AC runs in low noise and is suitable for sleeping or meeting.

Sweet dream comes true with sleep mode

Comfort

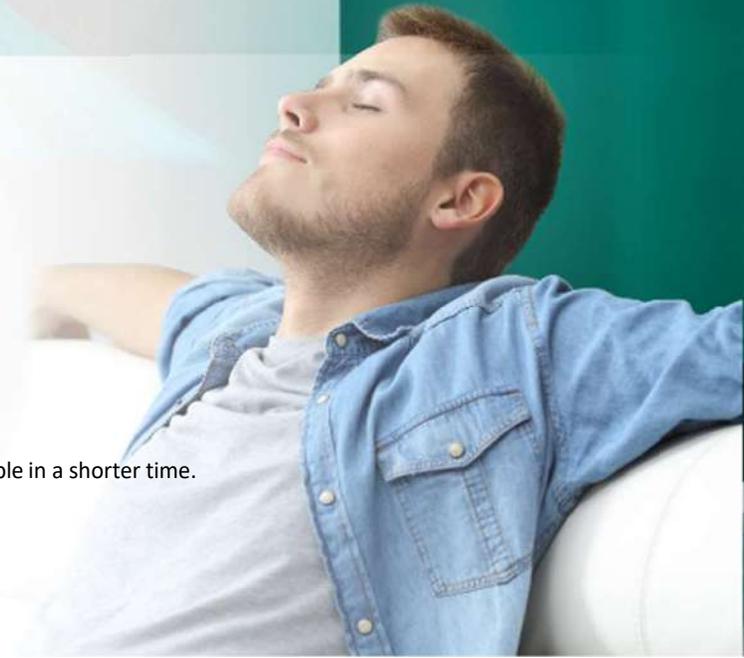

KELON

## Super Mode -Fast Cooling

Adopt high-efficiency DC inverter compressor, which can achieve fast cooling, energy saving and low noise

Fast cooling, allow you to enjoy larger airflow and feel comfortable in a shorter time.

Comfort

KELON

26

KELON

## Dehumidification function

One button dehumidification, the AC enter dry mode, say goodbye to wet weather and never fear rain and wet weather.

# Comfort

# KELON

## 5-Level Fan Speed

5-Level Fan Speed gives you precise control, stable cooling and maximum comfort.

At "FAN ONLY" mode, the "AUTO" is not available.

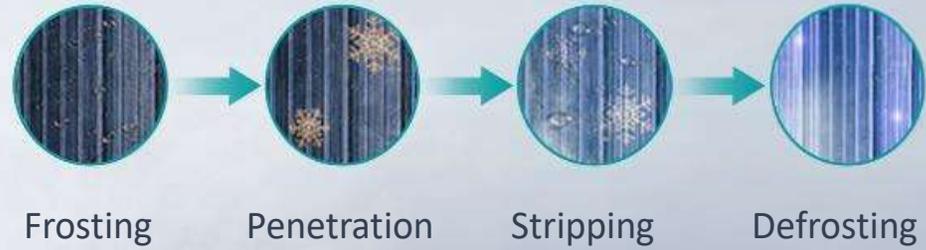

At "DRY" mode, Fan speed is set at "AUTO" automatically, "FAN" button is ineffective in this case.

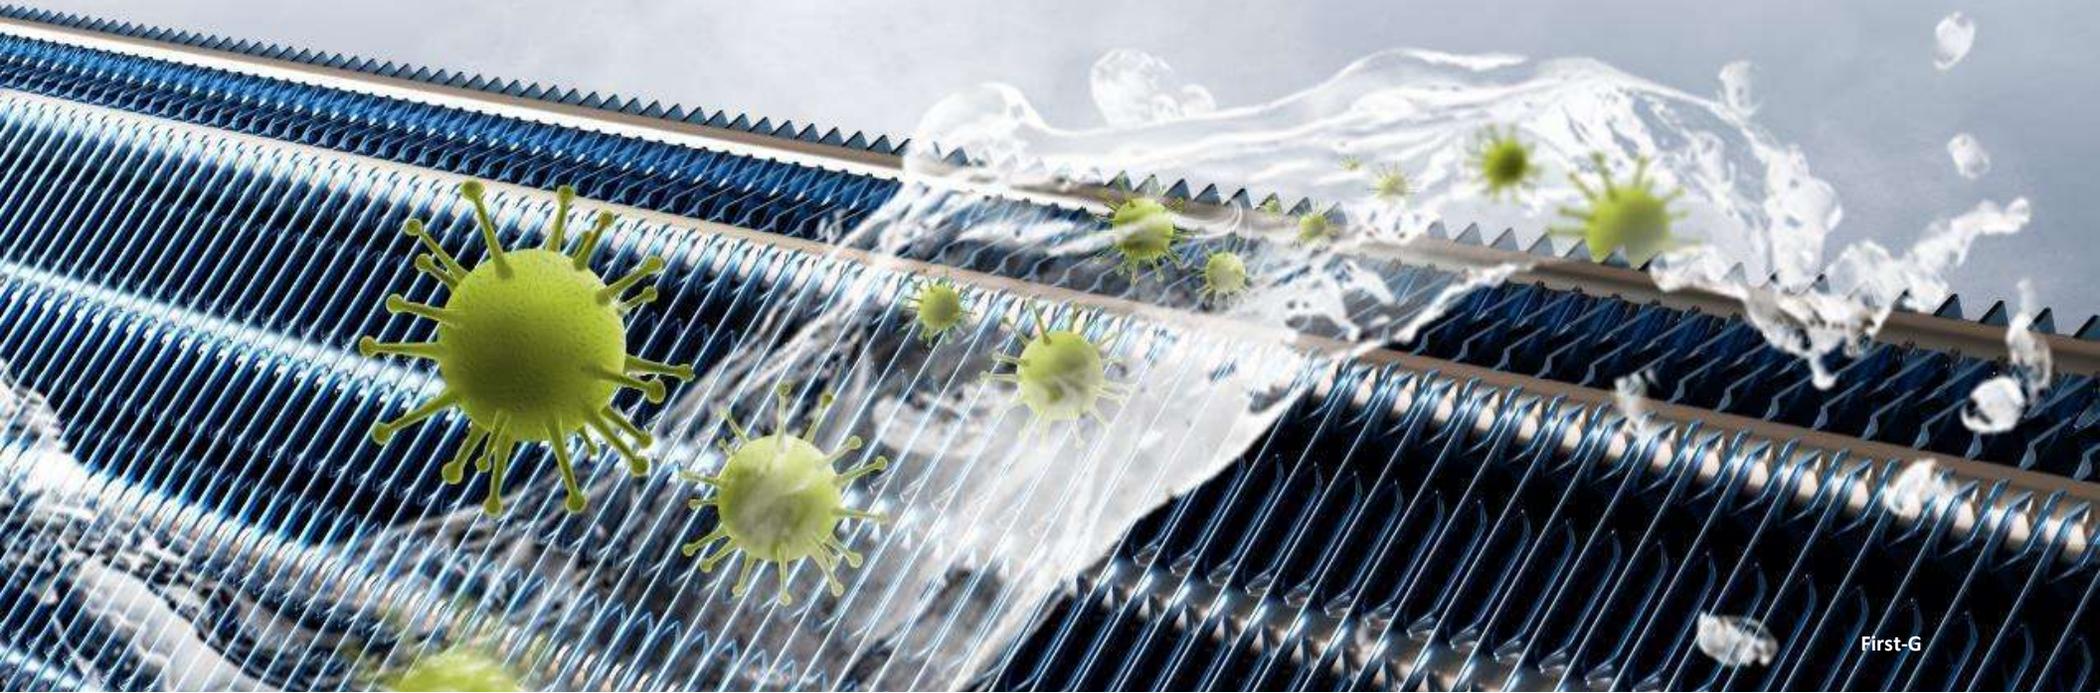

## Evaporator Self-clean

### First-generation Self-clean

Via a frosting and defrosting cycle, you can easily regain a clean air conditioner.

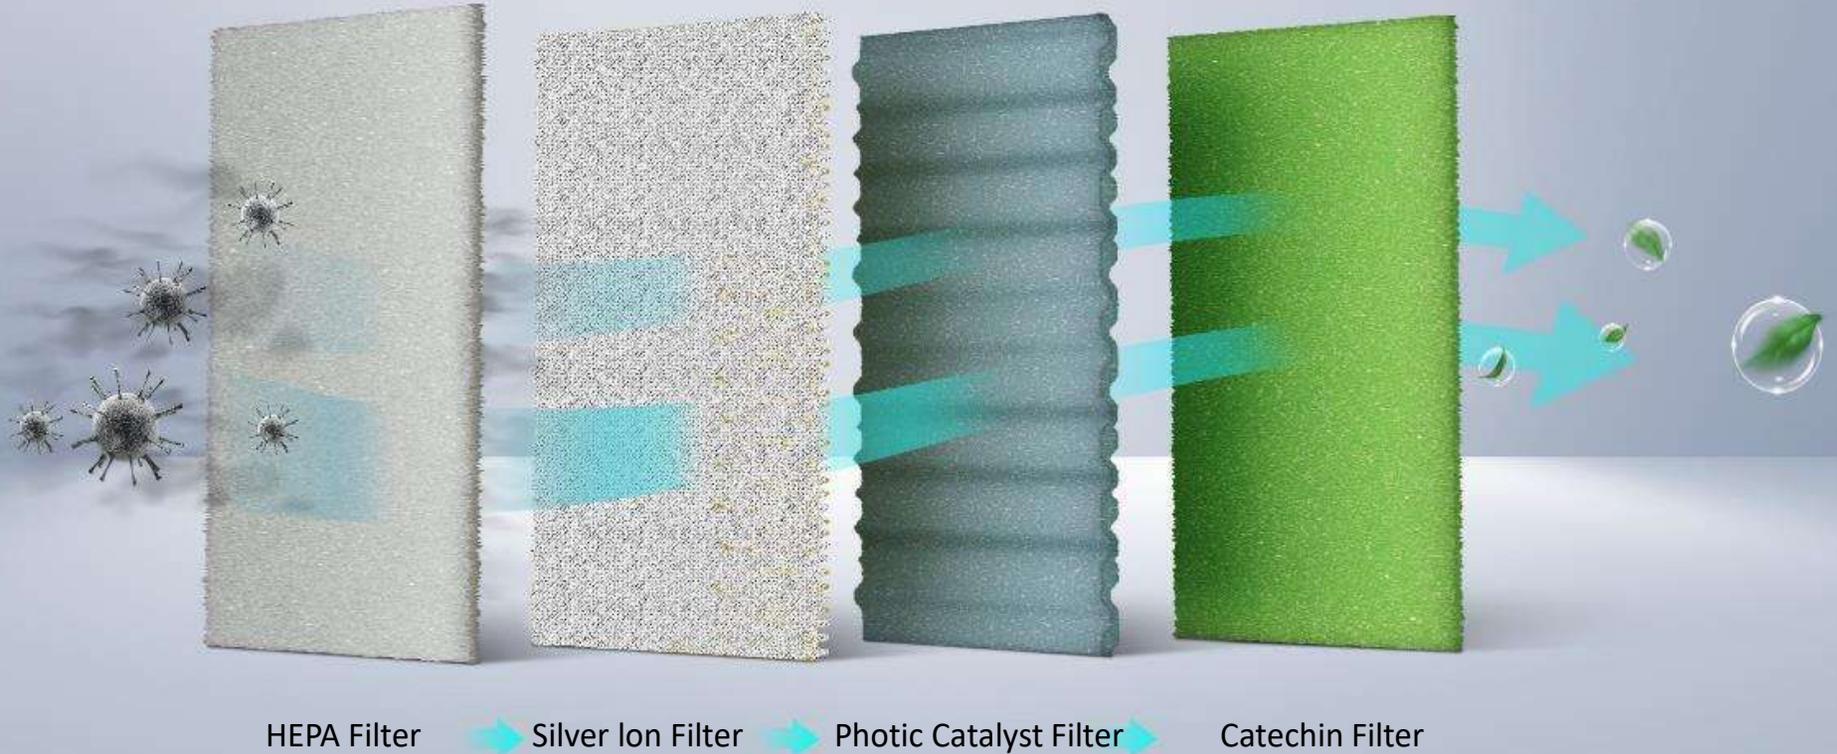

这里要再加

## 4-in-1 Filter (optional)

The combination of four filters can effectively remove all kinds of dust and odor in the air and refresh the indoor air.

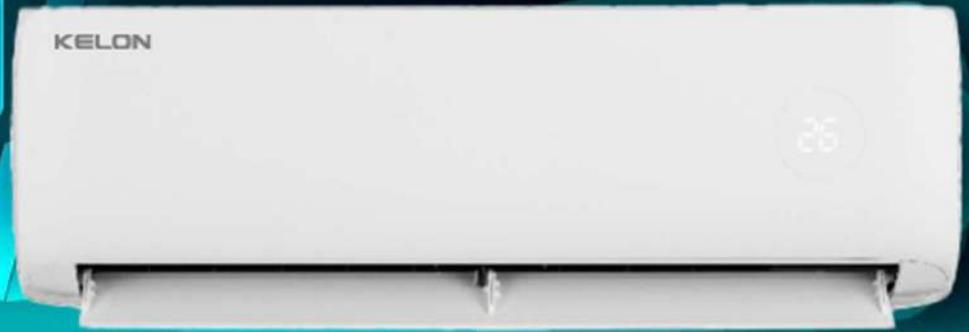

Energy-saving

KELON

ECO

30%

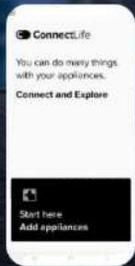

## ECO Mode

Relying on Hisense dual-mode inverter technology, without complicated settings, AC can immediately enter the energy-saving mode to minimize power consumption, which can save 30% power compared to ordinary inverter AC and saves 70% power compared to ON-OFF AC.

# Intelligence

## Wi-Fi Control

When the air conditioner is connected to Wi-Fi through the Hisense module, you can control the air conditioner freely through the Connect-Life app anytime and anywhere.

- Enter APP Menu
- Select Air Conditioner
- Set mode, temperature, air flow, etc.

# KELON

## Smart Mode

Press the SMART button, the AC enter fuzzy logic operation directly, no matter the unit is on or off. Temperature and fan speed are automatically set based on the actual room temperature.

The air conditioner will automatically adjust to the most comfortable temperature according to the room temperature

	Below <b>&lt; 23</b> °C	<b>Fan</b> Mode
---	----------------------------	--------------------

	23 °C ~ 26 °C	<b>Dry</b> Mode
---	---------------	--------------------

	Over <b>&gt; 26</b> °C	<b>Cooling</b> Mode
---	---------------------------	------------------------

# SMART

Fuzzy logic is a type of multi-valued logic that deals with reasoning that is not based on strict true or false values, but rather on degrees of truth.

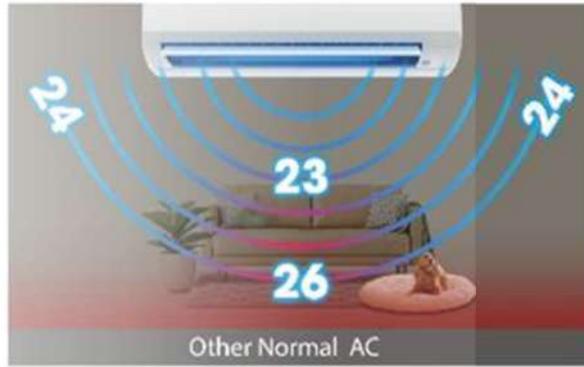

# Intelligence

## I Feel

By pressing the "I Feel" button to achieve intelligent temperature control and best room conditions.

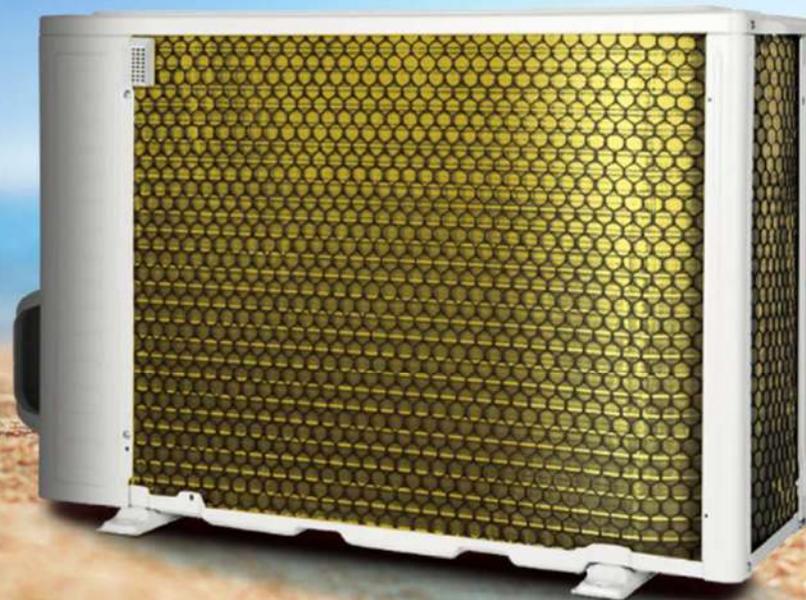

The remote control is equipped with a temperature sensor to feel 1m with in the surrounding temperature, and every 3 Minutes automatically transmits the information to the indoor unit, which operates and adjusts according to the perceived temperature to achieve intelligent temperature.

## Golden Fin

---

The golden fin used in air conditioner heat exchanger has high heat exchange efficiency, provides stable and durable cooling performance, it is high end stylish and more attractive.

◆ High heating efficiency

◆ High Fashion

## 100% Copper

### High Density Exchanger

Big Heat-exchange Surface

High Density Fin
